

Zaria Zinn

UX Designer & Researcher

Passionate about using human-centered design to build experiences that effortlessly merge user and business needs.

Projects

CodeAlgo, Product Design

UX/UI Designer, November 2022-January 2023

- Delivered a high-fidelity prototype designed in Figma complete with brand guidelines, curated colors, and typography based on customer research
- Guided the client team to solidify their vision for the product and provided potential feature opportunities drawn from user research

Shipt, Mobile App Redesign

UX/UI Designer & Researcher, September 2022-November 2022

- Designed a high-fidelity functional prototype of a complete user flow in Figma based on user research and business needs
- Lead moderated exploratory user interviews focused on the grocery delivery industry to develop a problem statement and How Might We questions

Experience

Williams Sonoma Inc. Pottery Barn Kids & Teen, San Francisco, CA

Digital Production Coordinator, June 2021-Present

- Lead team in transition to Figma and built out over 10 landing page templates complete with use of components to match site styling and satisfy UX requirements
- Mentored teammates and facilitated trainings on Figma, Photoshop, and Illustrator best practices, shortcuts, and automation
- Executed seasonal design updates for 5 on-site landing pages, coordinating with cross functional partners to develop banners and creative assets

DocMagic, Los Angeles, CA

Marketing Operations Specialist, November 2020-June 2021

- Provided insight into best UX practices and trends for marketing landing pages, emails, and on-site forms leading to a 4.5% increase in form submission
- Headed A/B testing on landing pages, paid social, and syndicate display ads to refine marketing and design techniques, increasing CTR by 2%

Evite, Los Angeles, CA

Marketing Campaign Specialist, January 2020-September 2020

Marketing & Comm. Coordinator, August 2018-January 2020

- Curated four brand personas based on site behavior and user demographic data to guide marketing campaigns and site language
- Expanded on-site placement click-through rate by 120% by testing optimal strategy for design, copy, and content
